

FOODSERVICE

ADVANTAGE: VITA-MIX

It's NOT about blenders,

IT'S ABOUT YOU.

It's about the smoothies and frozen coffee drinks made with our blenders. It's about the large crowd on Saturday night being served frozen bliss from our blenders. It's about the perfect soups and sauces being created in our blenders.

It's about your business. It's about your new menu made possible only with our blender. It's about your new theme nights inspired by the frozen drinks made in our blender. It's about your profits going up constantly by serving perfect drinks made with our blenders.

Advantage: Vita-Mix.

We have always designed and manufactured outstanding blending equipment. Blenders powerful enough for those tough to handle ingredients yet versatile enough to handle the most sensitive of recipes in the same machine. That still hasn't changed.

We are more committed now than ever to building the greatest blending equipment in the world. And, as we have seen recently, our competition is TRYING to catch up. In test after test, we make the best smoothies, shakes, frozen coffees, ice cream treats, sauces and more. Bottom line: **Advantage: Vita-Mix.**

Our new Advance Blending Technology product line is here, and the machines are amazing. That is why we have provided a simple summary of Vita-Mix beverage and food preparation products. It clearly details which blending machine is the best fit for you and your business, and what will be the best choice as you grow. **Advantage: Vita-Mix.**

*[Not the kind of tests our competitors use which test things only engineers understand, but tests that show who makes the best smoothies, shakes, frozen daiquiris and so much more. Real world tests!]

Vita-Mix Blenders are designed for use in demanding foodservice operations. Why else would the most successful chains all over the world choose VITA-MIX?
